DETAILED ACTION

Claims 1-22 are currently pending in the instant application.

I. *Response to Arguments*

Applicant's amendment, filed August 6, 2007, has overcome the objections of claims 1, 6 and 14 for informalities; the objection to the abstract and the objection to the oath/declaration. The above objections have been withdrawn.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112, 2nd paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-11, 14-16 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the term "stabilizing ligand" is not clearly defined in the specification, so the Examiner can know what subject matter is encompassed by the term. Only two examples are given in the specification such as 1,5-cyclooctadiene and p-cymene but the specification states that the stabilizing ligand can be a diene, alkene or arene.
